LIFE SUCCESS

We all want success in life but let's be truthful, sometimes it just seems out of our grasp. They make it sound so easy when you hear that motivational speech from your favorite guru. Real success, life changing success, soul satisfying success requires work, planning, commitment, dedication, passion, and a definitive sense of purpose. It's why we live, it's why "SuccessFest" exists.

Success is such an ambiguous word. It means different things to every person; but, at the end of the day, success is about doing what makes you happy and fulfilled in life.

That's why we started SuccessFest, to help you find that sweet spot where success is for you. Congratulations, because today is the day where you define your destiny and chart your course to the amazing life you always dreamed of...

It has always been my passion to help others become happy, healthy, and whole. I have made it my life's mission to become a public speaker, advocate, minister, servanthood leader, and author who encourages others to press through their traumas and discover why they were chosen to survive. In 2020, I started a nonprofit organization called Beauty From Ashes Foundation, Inc., where we help sexual assault victims and their support systems restore the beauty of their lives.

Myra B. Carter Pronoun She/Her/Hers

is a true renaissance woman of many talents. Her contribution to this world is to help individuals draw themselves to healing and wellness; She has always helped people overcome challenges and expand their experiences since 2008 when she became the co-author Wellness for the African American women Body, Mind and Spirit.

Myra is Emotional & Trauma Speaker, Story Teller, and currently serves as a Trauma & Resilience Soul Coach in the Salt Lake City, Utah area. She has spent several years as a Trauma Support Specialist, helping sexual assault survivor's provide resources and support in hospital emergency rooms and community centers during medical forensic Code-R exams as part of the 24 hour Mobile Response Team, assisted them in providing trauma focused counseling, helping them develop healthy coping skills, and achieve their desired goals. My life purpose is to help others overcome seasons of adversities, grow through what they go through, and be the best version of themselves!

I contribute to the success of others by teaching them how to shift their money mindset and develop a new relationship with their money so they can create financial independence. This helps them heal from past financial trauma so they don't have to stay in dangerous situations because they can't afford to leave. I help them overcome their money fears so they can have the financial future they deserve.

I contribute to the success of others by showing up as my authentic self and sharing the gifts that God has given me. I encourage, inspire, and educate those around me, specifically in the areas of leadership development and financial wellness. I attempt to pour into those around me when I can, as my experiences have taught me a life's worth of lessons on what works and what doesn't work on this journey called life.

My contribution to the success of others comes in multiple formats. First, I find out exactly what the definition of success means to the individual regarding wellness, wisdom, and wealth. Then we identify essential items within these pillars of wellness, wisdom, and wealth that the individual desires. Once the desires have been identified, we work together to create a blueprint for the individual. This blueprint contains the key ingredients and action steps needed by the individual to transform their lives in the area of wellness, wisdom, and wealth to what they desire.
